DETAILED ACTION

Allowable Subject Matter

Claims 1-20 are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claim 1, the prior art of record, taken either alone or in combination, fails to disclose or render obvious an optical system, the system comprising a chirped Bragg grating etalon that is responsive to a broadband optical signal, the etalon providing a chirped Bragg grating etalon optical signal having a precise set of optical reference signals, in combination with the rest of the limitations of the above claim.

As to claim 16, the prior art of record, taken either alone or in combination, fails to disclose or render obvious an optical source, the source comprising a broadband source providing an optical broadband signal, and an etalon including an optical waveguide having a pair of chirped Bragg gratings disposed therein, the grating pair being optically spaced a predetermined distance apart to provide a desired filter profile, in combination with the rest of the limitations of the above claim.

With further regard to the above, please see applicants' arguments dated September 28, 2006 in response to the previous Office action of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
